

## The PACC mapping project: Balhannah to Kanmantoo

Balhannah to Kanmantoo.

A very challenging 47 km course, with a multitude of leg sapping climbs. None of the rises are particularly bad, it is just there are quite a few to get over. Road surface varies from fine to poor (slippery when wet), and traffic conditions can be busy, especially near the towns on the course. An aggressive attitude and lighter build will reap rewards. As a consolation nearby Hahndorf plays host to some excellent bakery's as long as you like calorie laden treats ;-)

Approx. 45 mins travel time from Adelaide GPO.
