

## The PACC mapping project: Roseworthy

### Roseworthy to Mallala & Return

40km of rolling terrain with one small hill of minor stature on the return trip just past Red Banks. Very open farming country typically with west to northwest winds resulting in tail-wind sprints much of the time. Traffic is generally not too bad, with most drivers being courteous enough to pass with plenty of room. The road surface is somewhat rough, but is generally ok for both wet and dry conditions. A great course for the very strong riders.

Approx. 1hr travel time from Adelaide GPO via Gawler Bypass or Angle Vale (which happens to host an excellent bakery)
