

## The PACC mapping project: Whispering Wall

### Whispering Wall

A very pleasant course except for the steep climb of the last kilometre. With almost 10 km of mostly downhill or flat road (with a few small lumps), this course favors the lighter climbing riders. Finishing atop a very challenging climb it is unforgiving to competitors lacking fitness. It is excellent training nonetheless for the less fit of us. Generally good roads and mostly courteous traffic as well as delicious bakery's help to ease the pain of climbing up and over the Whispering Wall.

Approx. 1hr 20 mins travel time from Adelaide GPO.
